DAY TODAY

BY PETER VIDAL

ARIES (Mar 21 - Apr 20) Today's planetary pattern is of considerable significance for the

coming weeks. You'll be calling on all your past experience, particularly on the fact that all the career changes of the past three years have made you wise and mature.

TAURUS (Apr 21 - May 21) Everything I have said about increasing respect

at work and comfort at home crystallises around planetary positions over the next forty-eight hours. You now have about ten to twelve weeks to press ahead in pursuit of your goals with total determination.

GEMINI (May 22 - June 21) It looks increasingly likely that many of vou may soon be

taken abroad on account of work or some equally serious purpose. Even if you never leave your front door, something that happens on the other side of the world is due to make its mark on your imagination.

CANCER (June 22 - July 23) You should consider the financial

situation. Your stars today have nothing to say about immediate purchases and everything to say about the need to take care of the long-term, meaning pensions, savings, insurance and sundry guarantees. Home is where the heart is.

LEO (July 24 - Aug 23) Your planetary positions in the next

two days set the scene for the coming two months as far as you and your loved ones are concerned, so lift your sights from the daily grind and spare a thought for your purpose, place and destiny on this planet you have.

VIRGO (Aug 24 - Sep 23) Don't worry about being exploited or

overworked. The more you put yourself out now and over coming weeks, the more amazing will be the consequences over future years. Just don't push yourself so hard that you end up flat on your back. That would

LIBRA (Sep 24 - Oct 23) Life is never straightforward, even when it is supposed to be. There's a strange contradiction between romantic inhibitions and social confidence. The result of such a dynamic

> difference could be to transform your emotional life

for better, once and for all. SCORPIO (Oct 24 - Nov 23)

everything seems terribly easy, even when help arrives from unexpected quarters. If you are gearing yourself up to make the greatest effort you've made for many months, then you are truly in league with the heavens. Strike a shrewd financial deal.

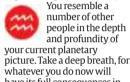

SAGITTARIUS (Nov 24 - Dec 22)

Friends and colleagues have different points of view and you seem to have one foot in each camp. Combine selfishness with selflessness in exactly equal measure and you won't go far wrong. Entrepreneurial activities are especially favoured, all the more so if a property deal is on the cards.

CAPRICORN (Dec 23 - Jan 20) The past few weeks have almost certainly proved dynamic socially,

but there does now seem to be reason enough for an apology of sorts. Hopefully it was someone else who stood on a partner's toes, not you. Do your bit to improve things.

AQUARIUS (Jan 21 - Feb 19)

have its full consequences in around six months' time. Don't rush it or you'll overlook essential details. PISCES (Feb 20 - Mar 20)

You like to spend time by yourself. In fact, there is a distinctly monastic

side to your personality, and I think it should now be indulged. Stay in and enjoy yourself by all means: if other people try to drag you out it will have to be to do something very special.
